

Fully Hydrogenated Soybean Oil VGB 4S

Description

Our VGB 4S is a high melting point fully hydrogenated soybean oil presented in flakes.

It complies with the specifications of:

- European Pharmacopoeia “Soybean Oil, hydrogenated” <1265> monograph
- USP/NF Pharmacopoeia “Hydrogenated Soybean Oil” monograph

Application areas

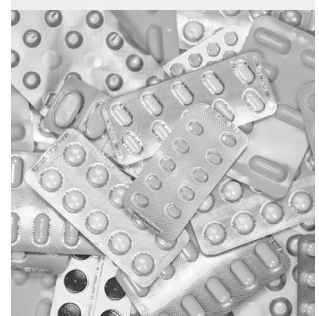

VGB 4S can be used as a thickening excipient in the manufacture of soft gelatin capsules, creams and lotions.

Possible dosage forms:

- oral
- topical

Packaging

VGB 4S is available in 25kg paper bags.

Fully Hydrogenated Soybean Oil VGB 4S

Quality

VGB 4S is manufactured under strict quality assurance conditions according to ISO 9001:2015 standard, GMP and HACCP methods.

Stability studies show that VGB 4S stored in cool dry condition in the original closed packaging is perfectly stable over a 24-month shelf life period.

Contaminants

VGB 4S complies with current European and French regulations: 1881/2006/EC Regulation and its amendments, 2009/32/EC Directive.
