

High Quality – from Source to Final Product

Plant-based excipients are particularly fast-growing area, they are cost-effective, bio-compatible, have low-toxicity and are easily available.

We know that the health of our natural resources is critical to our future, and that our commitment to sustainable practices will result in a stronger ADM and a better world. ADM is committed to meeting its environmental obligations, while pursuing ways to continually improve our efforts in both protecting the environment and enhancing environmental sustainability.

Extensive range of pharmaceutical ingredients suitable for injectable, oral and topical formulations

ADM's purpose is to unlock the power of nature, to enrich the quality of life. We transform natural products into a complete portfolio of ingredients for the pharmaceutical industry, suitable for any dosage forms (tablets, soft gel capsules, liquids etc.).

Our innovation and expertise are helping people live healthier lives.

High-quality raw materials from excipients to APIs

Compliant with EP & USP requirements

Global Sourcing Management from farmer to pharmaceutical ingredients

Pharmaceutical Ingredients Portfolio
