# WORLD DIABETES DAY

The Nurse and Diabetes

**PE** PHARMA  
EXCIPIENTS

WDD is the world's largest diabetes awareness campaign reaching a global audience of over 1 billion people in more than 160 countries. The campaign draws attention to issues of paramount importance to the diabetes world and keeps diabetes firmly in the public and political spotlight.

## FACTS ABOUT DIABETES:

**463**

million adults  
(1 in 11) worldwide  
were living with  
diabetes in 2019.

**1 IN 2**

adults with  
diabetes remain  
undiagnosed  
(232M worldwide).

**4.2**

million deaths  
worldwide were  
caused by diabetes  
in 2019.

Diabetes was responsible for at least \$760 billion in health expenditure in 2019 - 10% of the global total spent on healthcare

## TYPES OF DIABETES:

### Type 1

Type 1 diabetes (previously known as insulin-dependent, juvenile or childhood-onset) is characterized by deficient insulin production and requires daily administration of insulin. Neither the cause of Type 1 diabetes nor the means to prevent it are known.

### Type 2

Type 2 diabetes (formerly called non-insulin-dependent, or adult-onset) results from the body's ineffective use of insulin. The majority of people with diabetes have type 2 diabetes. This type of diabetes is largely the result of excess body weight and physical inactivity.
